Problem Identification

The problem identification should clearly present the "Who, What, When, Where, and Why" of the traffic-related issues that are distressing the community and causing crashes, injuries and fatalities. The statement should provide a concise description for the defined geographic area or jurisdiction. Include consecutive years of the most recent local and statewide data, as well as local demographic information.

(Charts, graphs and percentages are effective ways of displaying the data . Chart and graph documents can be uploaded as attachments on the next page).
